

THE GOLDEN ERA CHART

If the Fighter's Lifestyle Roll was a "GOLDEN" Roll, use his/her Popularity Rating to Roll on this chart.

This is the Era in which Entertainment Media really added a boost of popularity to boxing!

Boxing was often seen on free TV more than once a week. Main Event Title Bouts were viewed by more people through TV and Closed Circuit venues than ever before. This turned some of the more charismatic boxing personalities into Superstar Celebrities and household names. This chart adds a little nuance to this very special Era. Some Fighters will have their Popularity Rating (Pop) affected by the opportunities presented by the Entertainment Media. This can be a great thing for some and for some it could be their downfall!

Some Fighters will allow their new found Popularity to lift them to higher ground, while some will not be able to handle the new found fame.
